## Driving & Traffic Rules

NAME \_\_\_\_\_

### If you wish to drive automobiles in Japan

This part is devoted to explaining the facts about driver's licenses, registration, traffic rules and accidents that you need to know when you own and use an automobile, motorbike, bicycle, etc.

## 1 Driver's license

### 1-1 In order to drive automobiles in Japan

You need a valid driver's license when you drive an automobile or ride a motorbike in Japan. You must always carry your driver's license when you drive or ride your vehicle. The following are driver's licenses valid in Japan.

#### ●Driver's licenses valid in Japan

- Driver's licenses acquired in Japan
- The International Driving Permit issued by signatory countries of the Geneva Convention
- Domestic driver's licenses of Germany, Switzerland, France Belgium, Taiwan and Italy ("foreign driver's licenses")

# Multilingual Living Information

## N Transportation

### 1 Driver's license

#### 1-2 International Driving Permit and foreign driver's licenses

##### (1) International Driving Permit

If you hold an International Driving Permit issued by a signatory country of the Geneva Convention, you can drive in Japan during the period designated below:

##### ●The valid period of an International Driving Permit

The valid period is the shorter of either of the following: for one year after the date on which you landed in Japan; or the remaining valid period of your International Driving Permit. However, this provision is exempted if you are registered on the Basic Resident Register, thereafter departed Japan with a reentry permit and landed in Japan again after a period shorter than three months from the date of your departure. In this case, the valid period is calculated from the date of your first entry into Japan.

##### ●Convention on Road Traffic (Geneva Convention) signatory countries (as of December 2017)

### (2) Renewal of International Driving Permit

In Japan you cannot renew any International Driving Permit issued in other countries: the International Driving Permit is independently controlled by each country pursuant to the treaty.

If your International Driving Permit has expired, you need to acquire a new one in the issuing country.

If you stay in Japan for longer than one year, you are advised to have a driver's license issued in Japan.

### (3) Overseas driver's license (foreign driver's license)

If you have a driver's license issued in Germany, France, Switzerland, Belgium, Taiwan or Italy with a Japanese translation attached to it, you can drive in Japan the shorter of the following periods : for one year after your entry into Japan or the validity period of the overseas driver's license. However, this does not apply to people who are registered on the Basic Resident Register, have received a re-entry permit and left Japan, and have returned to Japan within 3 months from the day they departed. In other words, in this case, the period of validity is calculated from the day you first landed in Japan. Such a translation, however, must be prepared in any of the issuing organization of your driver's license, the embassy or a consulate of the issuing country located in Japan or the Japan Automobile Federation (see [2-4 JAF](#)).

You must carry your passport and the above documents when you drive.

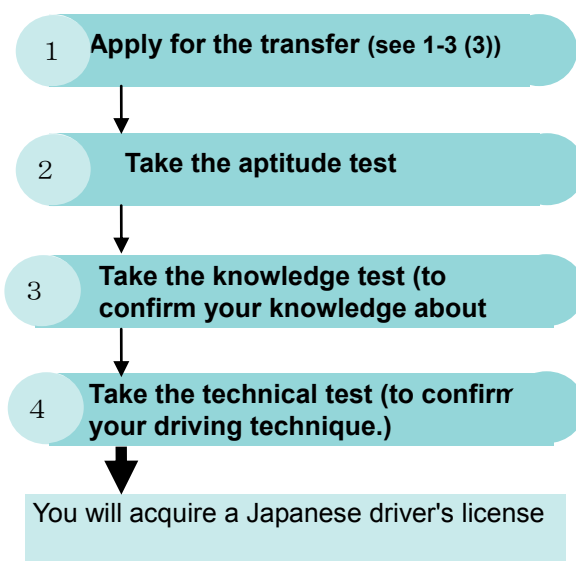

### 1 Driver's license

#### 1-3 Switching to Japanese license

##### (1) Switching to Japanese driver's license for people who have an overseas driver's licenses

If you have a valid driver's license issued in a country other than Japan and can prove that you stayed in the country for three months or longer from the date on which you acquired the license, you are eligible to have your driver's license transferred to one issued in Japan. If you receive screening/confirmation that shows you have no difficulty driving in Japan, you will be exempt from a portion of the tests (to confirm your driving knowledge and technique) given at a driver's license center or a test site of driver's license run by the metropolitan or prefectural police headquarters that controls the area you live in.

##### (2) Process of switching to Japanese driver's license

\* If you don't speak Japanese, you need to be attended by an interpreter

\* You are exempted from 3. knowledge test and 4. technical test listed above, if you hold a driver's license issued by any of the following 25 countries, etc. (as of April 2017): France, Germany, Switzerland, Italy, Belgium, the Netherlands, Luxembourg, the United Kingdom, Denmark, Ireland, Greece, Spain, Portugal, Sweden, Norway, Iceland, Finland, Austria, Australia, New Zealand, South Korea, Canada, Czech Republic, the State of Maryland and the State of Washington of the United States, Slovenia, Monaco and Taiwan.

### 1 Driver's license

#### (3) Required documents for switching to Japanese driver's license

Required document	Where to submit	Fee
<p>1. Application form for driver's license (available at test sites)</p> <p>2. A portrait photo (3cm long x 2.4cm wide, taken within the last six months) the number of photos depends on the number of applications</p> <p>3. A resident record (juminhyo) containing your nationality (permanent legal address) (people who are not registered on the Basic Resident Register, require a letter of certification, etc. from the head of the household they are staying with or from their hotel manager)</p> <p>4. Your driver's license issued in your native country (or a country other than Japan) (if the license does not bear the date of delivery, material evidencing such date)</p> <p>5. Official Japanese translation of your driver's license (it must be issued by any of a foreign administrative body, a consular body or JAF)</p> <p>6. Your passport (it must bear your emigration/immigration record)</p>	<p>Driver's license center located in the area of your residence</p>	<p>About 5,000 yen for application, delivery and other services.</p> <p>Fees vary for types of license you apply for. For details, please enquire at the driver's license center of your area.</p>

Depending on the country, you may need documents other than those stated above. For details, please enquire at the driver's license center of your area.

### 1 Driver's license

#### 1-4 How to obtain Japanese driver's license

##### (1) Requirements to obtain Japanese driver's license

Regardless of your nationality, you must take the following check and tests. In some cases you can take the knowledge test in English and other languages. Specifics must be confirmed.

##### ●The inspection and tests you must take

<b>Aptitude check</b>	Measurement of your eyesight and other basic aptitudes
<b>Knowledge test</b>	Confirmation of your knowledge about traffic rules (questions are basically given in Japanese)
<b>Technical test</b>	Confirmation of your driving technique (the inspector gives directions in Japanese)

##### (2) Attending a driving school

In Japan people generally go to a driving school to gain the technique and knowledge needed to acquire a driver's license. Acquiring a Type I driver's license designed for most ordinary, non-commercial driving costs about 300,000 yen. The duration period differs among driving schools and specifics must be enquired at each school. If you complete courses at one of designated driving schools, you are exempted from the technical test. In that case, you will acquire a driver's license after passing the knowledge test and aptitude check held by the Public Safety Commission. Every lecture at driving schools, as well as the tests, is given in Japanese.

### 1 Driver's license

#### 1-5 Valid period of driver's license/change in address

##### (1) Valid period of driver's license and expiration

Your driver's license is valid through one month after the third birthday you have after the delivery of the license. After that, your driver's license is renewed every third or fifth year depending on the duration of your holding the license and your record of penalties. When a renewal time nears, a "notice for renewing your driver's license" is sent to you (if you have changed your address, you must register it to the local police, in order to duly receive the notice). Upon the notice you will take the renewal procedure at the designated driver's license center or police station. Upon every renewal, you will take the aptitude check and renewal lecture.

If you fail to take the renewal procedure, your license will be expired (invalid) and you will need to take the tests again to acquire a new license.

##### (2) In case of change of address change

When you have changed your address, you must take the necessary procedures to have the address indicated in your driver's license changed. You must show a document proving your new address (a copy of your residence record (juminhyo), public health insurance card, etc.), to take the procedure at the police station or driver's license center governing your new address.

### 1 Driver's license

#### 1-6 Suspension/cancellation of driver's license, and fines

##### (1) What is the Japanese points system?

In the Japanese points system, each driver is given points every time they breach traffic rules by acts such as ignoring a traffic light, speeding and parking violations, as well as when they cause a traffic accident. When the points accumulated in three years exceed a certain level, the driver has his/her driver's license cancelled or suspended. (When no administrative treatment has been imposed on the driver in the past three years, six to 14 points make the driver subject to the suspension of the validity of his/her driver's license, while 15 points or more makes the driver subject to the cancellation of his/her license.) In particular, hit-and-run, drink-driving (driving under the influence of alcohol) and driving without a license are considered to be serious offenses that result in heavy administrative treatments.

##### (2) Notification system for minor traffic offences

A driver who has committed comparatively minor traffic rule offenses (fouls), he/she is given a blue slip (notification for traffic rule fouls) and a provisional payment notice from a police officer at the site of the act. The driver can complete the necessary procedure when he/she pays the penalty fee using the payment notice at a post office or bank before the payment period expires (within eight days including the day of committing the foul) (of course a certain amount of points is added to the driver's record). The list below shows points

##### ●Points for main traffic rule offenses and the amounts of the penalties

Type of traffic rule offense	Points	Amount of penalty (large-size vehicles)	Amount of penalty (regular-size vehicles)	Amount of penalty (motorcycles)
Excessive speeding (25km or more, below 30km)	3	¥25,000	¥18,000	¥15,000
Abandoned parking offense (park-forbidden sites, etc.)	2	¥21,000	¥15,000	¥9,000
Parking/stopping offense (park-forbidden sites, etc.)	1	¥12,000	¥10,000	¥6,000
Ignoring a traffic light (red light, etc.)	2	¥12,000	¥9,000	¥7,000
Passage prohibition offense	2	¥9,000	¥7,000	¥6,000

# Multilingual Living Information

## N Transportation

[▲ Back to the top of N Transportation](#)

Type of traffic rule offense	Points	Amount of penalty (large-size vehicles)	Amount of penalty (regular-size vehicles)	Amount of penalty (motorcycles)
Passage demarcation offense	2	¥12,000	¥9,000	¥7,000
Overtaking offense	2	¥12,000	¥9,000	¥7,000
Offense of safe progression requirement at intersections	2	¥12,000	¥9,000	¥7,000
Use of a mobile phone, etc. (possession)	1	¥7,000	¥6,000	¥6,000

## 2 Ownership/use of automobiles

Automobile owners and users are legally required to register their automobiles, secure places to keep them, have them inspected and enter into coercive insurance contracts for them, among other requirements. It is also necessary to keep in mind various costs needed to own and use automobiles, in addition to the purchase costs: for fuel, insurance, statutory inspection, automobile taxation, repairs, among others.

### 2-1 Registration of automobiles

For the occasions listed below, you are required to make registration at the local transport branch office that controls the location of your residence/office. Every automobile must bear a number plate. You may have the registration procedures undertaken by an entity such as the shop at which you bought your automobile. To buy an automobile and register it, you need your registered seal (for light-vehicles, a standard seal) (see [D Other notifications – 5 Personal seals](#)).

Occasions that require registration	Place of registration
<ul style="list-style-type: none"><li>• When you buy an automobile</li><li>• When the name or address of the owner of an automobile changes</li><li>• When you give or receive the ownership of an automobile to/from a third person</li><li>• When you scrap an automobile</li><li>• When you have lost your number plate</li></ul>	Local transport branch office that controls the location of your residence/office

## 2 Ownership/use of automobiles

### 2-2 Proof of parking space certificate

To own an automobile, you need a proof of parking space certificate (to prove that you have secured a place other than on a street to park your automobile).

When you have secured a parking place, you will submit an application for proving the place to keep an automobile at the police station controlling the area of your residence and have a document proving this and the mark for keeping the place (proof of parking space certificate) issued.

## 2 Ownership/use of automobiles

### 2-3 Inspection of automobiles (“shaken” )

Inspection of automobiles or shaken is designed to check on a regular basis whether your automobile satisfies standards designated by law. No automobile is allowed to run on public roads unless it has passed this inspection and has the proof of inspection (shaken-sho) delivered for it. The inspection is valid for the next two years for personally-owned cars (three years after the first inspection of newly purchased personally-owned cars). Automobiles must undergo an inspection every second year. A square seal is given as evidence of the completion of the inspection, which you must affix on the windscreen of your automobile.

When you have a professional agent undertake the shaken procedure and inspection for your automobile, you can easily clear all the requirements, while having to pay for fees. If you wish instead to undergo the process on your own, please enquire at your local transport branch office

## 2 Ownership/use of automobiles

### 2-4 JAF (Japan Automobile Federation)

JAF (Japan Automobile Federation) offers rescue services for automobile accidents and malfunctions 24 hours a day and throughout a year. Its members are furthermore able to receive various benefits such as driving information (an annual fee is required).

#### (1) Issuance of translation of overseas driver's license

To apply for the transfer of a foreign driver's license to a Japanese one, you need a translation copy of the foreign driver's license (into Japanese). A valid translated document must be issued by only any of JAF, foreign embassies or consulates in Japan or the organization that issued the foreign driver's license in question.

The application fee is 3,000 yen per license. If you apply by mail, you will additionally need 500 yen for the cost of the return mail (including handling charge).

#### ●JAF online sites:

<http://www.jaf.or.jp/> (Japanese)

<http://www.jaf.or.jp/e/index.htm> (English)

#### ●How to apply

Necessary documents	How to apply	Application counter	Application fee
1. Application form for the issuance of translation for foreign driver's license 2. The foreign driver's license 3. A copy of the Residence Card or a copy of certificate of Residence Record, etc.*	By directly visiting a JAF counter or sending the documents by registered postal cash envelope	The counter for issuing translation documents at every JAF branch	3,000 yen (in case of mail) An additional 500 yen required for the returning mail (including handling fee)

\* Required when the driver's license is written in Arabic or Russian or issued in countries such as the Republic of Korea, Thailand and Myanmar.

### **(2) Sale of the foreign language versions of “Rules of the Road”**

“Rules of the Road” (issued by the Japan Traffic Safety Association) is designed to be used for preparing to take the knowledge test at the driver’s license test site. JAF issues its foreign-language editions (in 4 versions: English, Chinese, Portuguese and Spanish). While the Japanese original is free of charge at some local governments, the foreign language editions cost 1,404 yen per copy (consumption tax included, postal fee excluded).

For more details, please visit the JAF online site.

<http://www.jaf.or.jp/>

### 3 Ownership/use of motorbikes or bicycles

Owners of motorbikes and bicycles must comply with the registration system and rules for parking and other matters.

#### 3-1 Registration of motorbikes

Owners of motorbikes with emissions of 126cc or more must register their motorbikes at the local land transport branch office (automobile inspection and registration office) and have a number plate delivered for each vehicle. Owners of motor-assisted bicycles (with emissions of less than 125cc) must declare their bicycles at the municipal administrative offices serving their residence.

#### 3-2 Theft-prevention registration of bicycles

A theft-prevention registration system is in place for bicycles. The registration process can be made in most cases at the shop where you bought your bicycle.

#### 3-3 Parking

##### (1) No-bicycle/motorbike parking zones

Certain areas, such as those in front of train stations, are designated as no-bicycle/motorbike parking zones under local ordinances. Any bicycle or motorbike being parked in these areas can be forcibly removed to certain storage sites.

##### (2) Reclamation of illegally parked bicycles

To reclaim your removed bicycle, you need its key and your identity document (driver's license, etc.). In some cases reclamation is only possible after the payment of storage or relocation fees for reclamation. In these cases you are charged for fees incurred for removing and storing.

Signboard for no-bicycle parking zone

## 4 Traffic regulations

### 4-1 Japanese traffic regulations

In Japan traffic regulations are established for each of pedestrians, automobiles and motorbikes and bicycles. Learning these rules quickly and correctly is an important way to lead a safe life in Japan.

#### (1) Basic traffic rules

When there are no sidewalks, pedestrians must walk on the right side of the road. Automobiles and bicycles must run on the left side of the road.

Among pedestrians, bicycles and automobiles, pedestrians are prioritized. Pedestrians however must be fully cautious, as some people do not observe this rule.

You must follow traffic lights and signs. You must be fully cautious, however, as some people do not observe this rule.

# Multilingual Living Information

## N Transportation

[Back to the top of N Transportation](#)

### ●Major traffic signs

			
<b>Stop</b> Automobiles and bicycles must stop temporarily	<b>Slow</b> Automobiles must run at speeds that allows for a stop any time	<b>Do not enter</b> Automobiles cannot proceed any farther	<b>Passage banned</b> Pedestrians, bicycles and automobiles must not pass through
			
<b>Automobiles' passage banned</b> No automobiles can pass through	<b>One way</b> Automobiles can go only to the arrowed direction	<b>Only</b> Automobiles can go only to the arrowed directions	<b>Parking and stop banned during the designated hours</b> No automobiles can park or stop during the designated hours
			
<b>No parking during the banned hours during the designated hours</b> No automobiles can park during the designated hours	<b>No crossing by pedestrians</b> Pedestrians must not cross the street	<b>Only for pedestrians and bicycles</b> Only pedestrians and bicycles may pass through	<b>Only for pedestrians</b> Only pedestrians may pass through

# Multilingual Living Information

## N Transportation

[Back to the top of N Transportation](#)

### (2) Basic rules for pedestrian

Where there is a sidewalk, be sure to walk on it.

Where there is no sidewalk, walk on the right side of the street.

Observe traffic lights even if you are in a hurry.

Do not cross the street through between two parked or stopped automobiles.

Be sure to use any crossings or a pedestrian bridge. Where there is no crossing or pedestrian bridge, cross the road after carefully looking in both directions and confirming no automobiles are approaching.

# Multilingual Living Information

## N Transportation

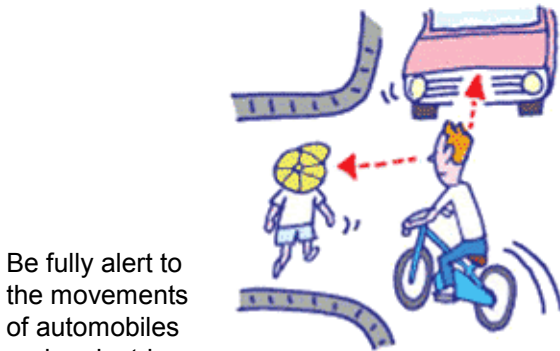

[Back to the top of N Transportation](#)

### (3) Basic rules for bicycles

Ride on the left end of the road.

Do not run parallel to another bicycle.

Be fully alert to the movements of automobiles and pedestrians.

A sidewalk with a sign allowing the passage of bicycles can be used by bicycles.

On sidewalks, pedestrians are given priorities. Bicycles must not speed along or force pedestrians aside by ringing the bell. Bicycles must stop temporarily when they likely hinder pedestrians.

At night be sure to run with the headlight on.

When you come across a place with a stop sign, be sure to follow it to confirm the safety of both sides.

At cross roads with traffic lights, be sure to follow the lights. When there is a bicycle lane along the cross roads, proceed on the lane.

# Multilingual Living Information

## N Transportation

[Back to the top of N Transportation](#)

### (4) Basic rules for motorbikes and automobiles

Never drive automobile or motorbike if you don't have a driver's license or when you have drunk alcohol. Failure to observe this rule, which could pose grave dangers, is subject to severe punishment.

When you are aboard an automobile, you must wear a seatbelt whether you are the driver or a passenger. Children below six years of age must be seated on a child seat. Motorcyclists must always wear a helmet.

Follow traffic lights, traffic signs and road signs.

Do not use a mobile phone while driving.

When somebody is about to cross a crosswalk, stop to let them pass first before you drive through.

When you come across a place with a stop sign, be sure to follow to confirm the safety of both sides.

In Japan, accidents frequently occur involving elderly people. When you see them while driving, try to run with a special care.

### 5 Traffic accidents

Recently there has been an increasing number of traffic accidents caused by non-Japanese people. Traffic accidents can occur anytime anywhere. This part is spared for introducing insurance systems in possible cases for causing an accident or being a victim of it.

#### 5-1 Traffic accident and automobile insurance

##### (1) In the case of causing a traffic accident

When you happen to have caused a traffic accident, immediately stop your vehicle, rescue the injured, take danger prevention measures on the road and notify police.

##### (i) Notification to police

Stop your vehicle at a safe place where it will not disturb the traffic and immediately notify police (telephone number: 110). If somebody is injured, call an ambulance to ensure the safety of the injured.

##### (ii) On-site inspection

When police arrive, have them confirm the site of the accident. Stay at the site until police arrive (except when there are any injured persons). If you do not obey this rule, you may lose your eligibility to receive insurance payments at later times.

##### (iii) Mutual confirmation

Tell the other party of the accident your address, name and contact number and receive the same information about them.

##### (iv) Notify the insurance company

Failure to notify this may void your eligibility to receive insurance payments. Insurance companies can give you advice to help you after an accident and negotiate with victims on your behalf. It is advisable to have negotiations in this way.

### (2) In case of becoming a victim of a traffic accident

#### (i) Mutual confirmation

Confirm the address, name, telephone number, car number, etc. of the person who has caused the accident. Be sure to give them your name, address and telephone number as well.

#### (ii) Notification to police

Immediately notify a nearby police station (telephone: 110). This is a must to acquire an accident certificate, which you will need to seek damage from the person who caused the accident and insurance companies.

#### (iii) Go to a hospital and have a medical certificate prepared

You need your medical certificate to charge treatment expenses to the person who caused the accident and insurance companies. You are advised to have such certificate prepared even if your injury is minor.

#### (iv) Preparation of employment certificate

If your injury disables you from working, contact your employer (company) to have an employment certificate prepared. A certificate prepared by your employer is necessary, when you claim damage of absence from work to the one who caused the accident and insurance companies.

\* If you are injured in a traffic accident, you are eligible for compensations provided by the automobile liability insurance and optional insurance contracted by the person who caused the accident.

\*\* If you are hit in a traffic accident during work or while commuting, you are eligible for compensations provided by workers accident compensation insurance as well.

### **(3) Compulsory insurance (automobile liability insurance)**

There are compulsory and optional insurance programs. In Japan every automobile owner is required by law to enter into an automobile liability insurance program. The entry is automatically made at the time of purchasing an automobile or undergoing a regular safety inspection. This type of insurance is applicable only when the insured automobile or motorbike causes death or injury to any third party while running. It compensates the damage incurred by the victim up to certain designated amounts. Such compensation can cover the minimum necessity but may not be sufficient in some cases that require huge sums of compensation. Automobile owners are advised to additionally enter into an optional insurance contract.

### **(4) Optional insurance**

Optional insurance covers such types of damage as are excluded from the compulsory insurance coverage, such as property damage (caused by accidents in which third persons' belongings are damaged) and vehicle damage (theft of vehicles). They also cover those personal damage cases which are partly covered by the compulsory insurance but ultimately exceed the limits designated by the compulsory insurance.

You can enter into optional insurance programs provided by private insurance companies.

## 5 Traffic accidents

### 5-2 Consultation on traffic accidents and mutual aid traffic accident insurance plans

#### (1) Consultation on traffic accidents

If you have caused a traffic accident or been involved in one, consult an advisor at a specialized consultation office at the earliest possible time. An experienced counselor will look into your case. For complicated problems, a lawyer will give you advice. The consultation is free of charge and confidentiality is observed.

Please enquire at your local municipal administrative office for the information on these consultation services.

#### (2) Mutual aid traffic accident insurance plan

This plan offers a consolation payment when any of its members becomes a victim of a traffic accident caused by automobiles or motorbikes inside Japan.

For further details, please enquire at your local municipal administrative office.

## 5 Traffic accidents

### 5-3 Compensation for damages and calculation methods

#### (1) Compensation for damages

If you have become a victim of a traffic accident, there are basically four types of damage you can seek:

<ul style="list-style-type: none"> <li>Expenses related to medical treatment</li> </ul>	<ul style="list-style-type: none"> <li>Compensation for damages caused by absence from work</li> </ul>
<ul style="list-style-type: none"> <li>Consolation fees</li> </ul>	<ul style="list-style-type: none"> <li>Compensation for death or residual disabilities (lost earnings and consolation money)</li> </ul>

#### (2) Calculation methods for damages

Calculation methods differ between automobile liability insurance, optional insurance and the calculation method of the Bar Association.

<b>Automobile liability insurance</b>	The upper limit for treatment expenses, etc. during the period required for medical treatment is 1.2 million yen. In addition to this payment, in cases where residual disabilities caused by the accident are diagnosed, insurance payments are made depending on the degrees of the disabilities. The payment of automobile liability insurance is basically not exempted unless the victim is found to have caused grave fault. But most of the payments are spent on treatment expenses, and in many cases little is left for work-absence compensation or consolation money.
<b>Optional insurance</b>	The upper limits differ among optional insurance programs
<b>Calculation method by the Bar Association</b>	Method used by the Bar Association for civil suits. The idea of "failure ratio" is used to determine the degree of liabilities owed by the person caused the accident and the victim, respectively. The amount of damage differs depending on this ratio.

# Traffic Rules in Japan

## Basic Rules for Drivers

Pay attention to pedestrians and other vehicles in traffic. Drive with care for others.

- Drivers and cyclists must keep to the left, while pedestrians should keep to the right side of the road.
- Drivers must yield to pedestrians.
- You must not drive under the influence of alcohol.
- You must not exceed the allowed number of passengers or load.
- While driving a vehicle, you must not use a cell phone or be distracted by the car navigation system.
- When you drive a vehicle, you must wear a seatbelt. All passengers in the vehicle must also wear seatbelts.
- When you drive with an infant younger than six years old, you must place the infant securely in a child seat.

- Maximum speed limits for vehicles are shown on traffic signs and road markings. You must drive safely within the specified speed limits. When there are no signs or markings indicating the speed limit, drivers of regular-sized automobiles must obey the speed limits of 60 km/h on ordinary roads, and 100 km/h on expressways.

# Examples of road signs in Japan

	 追越し禁止		
Road closed to all vehicles	No overtaking	Stop	Drive slow
			
Automobiles only	No parking or stopping	No parking	Railway crossing ahead
			
Slippery road	Road closed	No entry	No U-turn
			
Follow the directions	Pedestrian zone	One way	Exclusive lane

<p style="text-align: center;">Green light</p> 	<p style="text-align: center;">Yellow light</p> 	<p style="text-align: center;">Red light</p> 
<p><b>Pedestrians may proceed and cross</b></p> <p><b>Vehicles other than lightweight vehicles, and streetcars/ trams may go straight ahead to the point for turning right, and change the direction they are heading</b></p> <p><b>Lightweight vehicles (bicycles, carts, etc.) may go straight and turn left. When turning right, stop and change their directions to the right and wait at that point</b></p>	<p><b>Pedestrians must not start to cross. A pedestrian who is already crossing the road must finish crossing quickly or else turn back.</b></p> <p><b>Vehicles and streetcars/trams may not move further than the stopping point. However, if a vehicle is rapidly approaching the stopping point when the signal changes to yellow, and cannot stop safely, it may continue to proceed.</b></p>	<p><b>Pedestrians must not cross.</b></p> <p><b>Vehicles and streetcars/trams may not proceed past the stopping point.</b></p> <p><b>A vehicle or streetcar/tram, when already making a left turn at an intersection, may continue to proceed even if the signal light on the left is red.</b></p> <p><b>A vehicle or streetcar/tram, when already making a right turn at an intersection, may continue to proceed even if the signal light on the right is red. In this case, the vehicle or streetcar/tram, must not obstruct the traffic of vehicles or streetcars/trams approaching on a green light. However, lightweight vehicles and mopeds making a two-step right turn must stop after crossing the road and wait at that point while the signal light on the right is red.</b></p>
<p style="text-align: center;">Green arrow light</p> 	<p style="text-align: center;">Yellow arrow light</p> 	<p style="text-align: center;">Flashing yellow light</p> 
<p>Vehicles may proceed in the direction indicated by the arrow even if the signal light is yellow or red. (Vehicles may also make a U-turn when the signal arrow is indicating a right turn.) However, in the case of a signal arrow indicating a right turn, lightweight vehicles and mopeds making a two-step right turn may not proceed</p>	<p>Streetcars/trams may proceed in the direction indicated by the arrow even if the signal light is yellow or red, but pedestrians and vehicles may not proceed.</p>	<p>Pedestrians, vehicles and streetcars/trams may proceed carefully, paying attention to other traffic.</p>

## Types of traffic lights with meanings

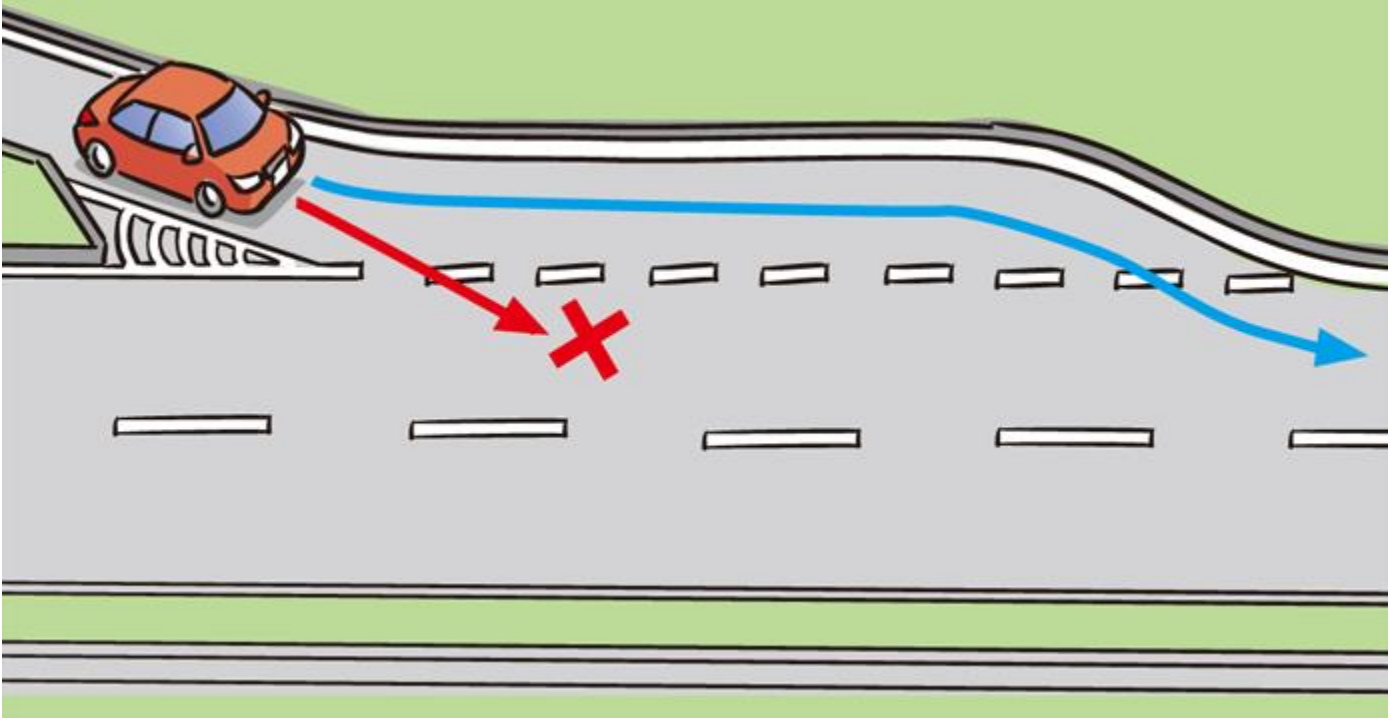

(Note) The term “stopping point” in this table refers to the point just before the stop line. In the absence of such a line, it is defined as follows:

- 1.A point just before an intersection (where a crosswalk/pedestrian crossing or a bicycle crossing lane is located close to an intersection, just before the crosswalk/pedestrian crossing or the bicycle crossing lane);
- 2.A point just before a crosswalk/pedestrian crossing, a bicycle crossing lane or a railroad crossing in places other than intersections; or
- 3.The point where a traffic lights can be seen in places other than intersections without a crosswalk/pedestrian crossing, bicycle crossing lane or railroad crossing nearby.

The term “vehicles” refers to automobiles, mopeds, lightweight vehicles such as bicycles and carts, and trolley buses.

- JAF publishes Rules of the Road, which provides details of traffic regulations in Japan, and is available for purchase at JAF branch service counters or through the JAF website ([Amazon.co.jp](https://www.amazon.co.jp)). The digital format is also available at the bookstores. For details, please contact a JAF Regional Office or check the JAF website.

## Driving on the expressway

Accelerate in the acceleration lane fully before merging into the main lane.

- When the maximum or minimum speed is specified with road signs and displays, you must not exceed or drive slower than that speed limit.
- You must not drive on the side strip or shoulder of the expressway.
- Use the passing lane only for overtaking. Stay in the driving lane.
- Some areas have no service stations for long stretches. Refuel in advance.

## Emergency Measures

### Breakdowns

- If your vehicle breaks down on the road, move it out of the way of other vehicles. If you have to park your broken-down vehicle on the road at night, you must turn on your emergency flashing hazard lights to warn other drivers that your vehicle is parked.
- Leaving your broken-down vehicle on the road may cause a serious accident. Please call the JAF for the prompt removal of the vehicle from the road. The possibility of a vehicle colliding from behind makes staying with your broken-down vehicle very dangerous. After taking the necessary risk prevention methods, evacuate to a safe location such as outside the guardrail. Do not remain in the car.

**JAF Road Service Telephone Number: 0570-00-8139; or Abbreviated Dialing Number: #8139**

• If you are a member of the JAF, you can use most of our road assistance services free of charge. The towing service for a broken-down vehicle is also free up to the first 15 km. JAF provides road assistance services throughout Japan 24 hours-a-day, 365 days-a-year. We recommend that you join the JAF for your security in an emergency. For details, please contact a JAF Regional Office.

- If you are a member of certain overseas automobile clubs, you may also be able to receive similar road services in Japan. For details, please contact a JAF Regional Office.

**Medical Assistance (for injuries and sickness): 119 / Police (for accidents and other incidents): 110**

- If you are involved in a traffic accident, first move your vehicle to a safe place out of the way of other traffic, and turn off the engine, to prevent the occurrence of secondary accidents.
- If anyone is injured, call 119 first and give whatever first aid you can to the injured person until an ambulance arrives.
- You must call the police (110) without fail and report the accident, providing information about the location of the accident, number of injured persons (if any), and degree of damage, and follow the police officer's instructions.
- If you cannot call the police or an ambulance for yourself, ask someone around you to do so. If you leave the scene of an accident, you might be deemed to have committed a hit-and-run offence.
- You may insure against automobile accidents to reduce the financial burden in the event of an accident. There are two types of automobile insurance:

## Compulsory automobile liability insurance

---

This type of insurance policy must be taken out at the time when a vehicle is purchased, or when a vehicle undergoes a safety inspection. This insurance covers the minimum amount of damages to be paid to the victims of automobile accidents and their families.

## Voluntary insurance

---

You can also take out a voluntary insurance policy, which provides more cover than the compulsory automobile liability insurance. We strongly recommend you to take out this type of additional automobile insurance to cover yourself in the event of a serious accident.

## Car Rental Reservations

---

These are websites for major car rental companies with useful information for driving in Japan. You can also make reservations through the internet or by phone.

# Self-serve Gas

SOURCE: Fire and Disaster Management Agency (<http://www.fdma.go.jp>)

TRANSLATION: Japan Automobile Federation (JAF)

## 1. Get your gas at filling stations equipped with self-serve pumps!

Self-service filling stations have easy-to-see signs at their entrance displaying in Japanese “セルフ” or “セルフサービス”

Self-service filling stations have fixed gas pumps with safety attachments. Some stations also have fuel pumps that are not designed for self-service. Drivers may not use these.

**Before refueling** 1. When entering the self-service filling station, look at the sign to confirm that the fuel pump is for self-serve use and pull up to the pump so that it is easy to refuel, taking care not to hit any equipment.

- 2. Put your car into park and turn off the ignition.
- 3. Unlock the door to the gas tank using the switch in your car.
- 4. Be sure to close the windows and doors when leaving the vehicle.

## 2. Know and check the proper type of fuel for your car! Make sure to remove all static!

## When refueling

---

- (1) Select the type of fuel for your car. Some cars use gasoline, while others use diesel. It is important for drivers to know the proper type of fuel for their car. This has nothing to do with the size or type of vehicle. Take extra caution when you are refueling a car that you do not normally drive such as the company car or a rent-a-car, or if you are using a self-service station for the first time.
- (2) Be sure to touch the anti-static mat to remove any static that may have accumulated on your body before opening the fuel cap.

If there is no anti-static mat, be sure to remove any static that may have accumulated on your body by touching a metal portion of your vehicle.

- (3) Remove the nozzle for the type of fuel you selected in (1). The type of fuel is labeled near the nozzle (e.g. regular gasoline). If the nozzles or hoses are colored, high octane is always marked in yellow, regular gas is red, and diesel is green.

### 3. Follow the procedures and do it right!

You may start refueling after the attendant in the control booth has verified safety.

Handle the refueling alone.

Watch that children do not get close to the gas port.

### Be sure to follow these instructions when fueling:

- ① Insert the nozzle securely into the gas port until it fits snugly.
- ② Pull the trigger on the nozzle until it clicks.
- ③ The gas will automatically stop flowing when it is finished.
- ④ After refueling, be sure to return the nozzle to its original position.

If the self-stopping mechanism activates soon after you begin refueling and you are not able to get gas, consult the attendant for advice on how to fill your tank.

### 4. Other precautions

- (1) Fire hazards such as lighters and tobacco are strictly prohibited! Gasoline vapor will blow from your gas port as you fill, and any gas drips or spills will cause large amounts of gasoline vapor. Never smoke or use lighters (including the cigarette lighter in your vehicle).
- (2) No subdividing gasoline into containers!  
Do not subdivide gasoline into containers by yourself.
- (3) Other  
Always observe all cautions posted at the self-service station.

# To all foreigners driving in Japan

In recent years, an increasing number of foreigners have been involved in driving accidents resulting in injury or death. Road conditions vary from country to country, but many foreigners have expressed concerns about driving on the left, the narrow roads, and the difficulty of understanding road signs.

Watch out for accidents, and drive carefully!

1

Qualifications

Those without a Japanese driver's license must have an **"international driving permit"** or a **"foreign driver's license + translation"**

### International Driving Permits

International Driving Permit issued by a signatory to the 1949 Geneva Convention

or

+

### Foreign Driver's Licenses + Translation

Driving license issued in Estonia, Switzerland, Germany, France, Belgium, Monaco or Taiwan, along with a Japanese translation of it.

Either type of license will be valid for up to one year from the date of your entry into Japan, but only within the term of validity of your license

2

Fundamentals

**Fundamental traffic rules to avoid accidents**

Keep your vehicle to the left

Japan is one of the few countries in the world where you drive on the left.

A red light means, "Stop"

A green arrow indicates the direction in which you may go.

"Stop" sign

You must stop the vehicle temporarily, when you come to this sign.

警察庁  
National Police Agency

37 都道府県警察  
Prefectural Police

# 3

## Examples

Here are examples of typical **accidents and violations**

### Accidents that occur when turning right

Watch out for cars in the opposite lane when turning right at an intersection.

### Deviating from designated directions

Where you see "Only designated directions permitted" signs, you can only go in the directions indicated by the arrows.

# 4

## Prohibited acts

There are other **traffic rules** you should know

Seatbelts must be worn by all passengers.

Never drive after drinking.

Never use a mobile phone while driving.

Never wear headphones while driving.

## Call emergency services immediately!

If you experience trouble or have an accident, call the police (dial 110).

Or if anyone is injured, call an ambulance (dial 119).

## Driving Test

NAME \_\_\_\_\_

DATE \_\_\_\_\_

Based on the given images answer the following questions as True or False

1

If you are going to drive a motor vehicle, it is important to know the rules of the road and to follow them at all times.

Select an answer  True  False

2

If you consume only a small amount of alcohol or sleeping medication, but still feel OK, it is acceptable to operate a motor vehicle.

Select an answer  True  False

3

When you see this sign, you can only proceed in the directions indicated.

Select an answer  True  False

4

It is OK for a car in position A to change lanes.

Select an answer  True  False

5

When you see this sign, it is OK to drive on this road.

Select an answer  True  False

6

When crossing a railway you should gear down so you can accelerate quicker if needed.

Select an answer  True  False

7

If there is a long line up of cars behind you and in front of you at an intersection with a green light it is acceptable to stop on top of the pedestrian crosswalk area.

Select an answer  True  False

8

When you approach an intersection and the light is red, it is acceptable to turn left if there is a sign with a blue arrow pointing left on a white background.

Select an answer  True  False

9

Every owner of a motor vehicle must take out a policy of automobile third party liability insurance. In an accident the person deemed responsible is required to cover repair costs of the party not at fault.

Select an answer  True  False

<p>10</p>		<p>It is okay to stop or park on the white lines on the road in front of a fire department</p>
<p>Select an answer <input type="radio"/> True <input type="radio"/> False</p>		
<p>11</p>		<p>This sign means no parking or stopping</p>
<p>Select an answer <input type="radio"/> True <input type="radio"/> False</p>		
<p>12</p>		<p>If it is late at night and the roads are empty, it is acceptable to change lanes here from Lane A.</p>
<p>Select an answer <input type="radio"/> True <input type="radio"/> False</p>		
<p>13</p>		<p>When you see this sign it is not acceptable to pass the car ahead of you.</p>
<p>Select an answer <input type="radio"/> True <input type="radio"/> False</p>		

14

When a parking space is not available it is acceptable to park your car along the side of the road in an area that does not have any other parked cars

. Select an answer  True  False

15

With a yellow blinking light, you can go through the intersection without paying attention to other drivers.

Select an answer  True  False

16

You can turn right even though there is a red light in this situation.

Select an answer  True  False

17

When there are 2 lanes going the same direction, a car cannot drive in the right-hand lane unless they are passing a car in the left lane.

Select an answer  True  False

18

. A car cannot pass another at a pedestrian crossing, nor within 30 meters of one.

Select an answer  True  False

19

. When you see this sign you should drive with your lights on, even during the day.

Select an answer  True  False

20		This sign means proceed with caution.
Select an answer <input type="radio"/> True <input type="radio"/> False		
21		It is acceptable to change lanes over a solid white line.
Select an answer <input type="radio"/> True <input type="radio"/> False		
22		If you are in a hurry it is okay if you do not slow down for an ambulance.
Select an answer <input type="radio"/> True <input type="radio"/> False		

23		When a car turns right at an intersection, it moves to the inside of the lane before, then crosses just inside the center of the intersection.
Select an answer <input type="radio"/> True <input type="radio"/> False		
24		When turning left on a red it is ok to turn when the light is red as long as there is no traffic coming and you made complete stop first.
Select an answer <input type="radio"/> True <input type="radio"/> False		
25		It is illegal to drive without wearing your seat belt.
Select an answer <input type="radio"/> True <input type="radio"/> False		

26		It is ok to drive a manual transmission car if your license states that you are only licensed to drive an automatic car.
Select an answer <input type="radio"/> True <input type="radio"/> False		
27		When you see this sign, you should be careful of pedestrians.
Select an answer <input type="radio"/> True <input type="radio"/> False
